Yes, I consider that would be the best way to address that too.

Thanks

Sonya

Good Morning

Thank you for your e-mail and for relaying the comments from Wildlands.
The 10m requirement and inspection of the weed control should be fine and possibly these matters could be covered by conditions?
If you require anything further from us please let me know.

Regards

Luke McSoriley

Hi Luke,

Wildlands Consultants Ltd (Kelvin) has advised that he supports the FTT revised proposal.

He suggested to avoid ambiguity, controlling weeds out to 10m either side of the trail (within the wetland area) would be better, rather than an 8-10 m range.

There would ideally be some performance standards, with inspection of the areas after control, to assess both the effectiveness of weed control, and that the control is not adversely affecting indigenous vegetation.

He would also support FTT continuing to discuss with the private landholder management of the willow trees, though notes that they can't commit to anything requiring third party permission unless they already have such permission.

Regards

Sonya

Hi Luke,

Thanks for this. I have sent it on to Wildlands Consultants Ltd to get their comment on it. I will let you know the feedback once I have it.

Regards,

Sonya

Hello Sonya

Thank you for sending through the additional assessment from Wildlands Consultants Ltd on the Fiordland Trails Trust application.

Fiordland Trails Trust is willing to remediate adverse hydrological effects on the wetland through pest plant management.

The Trust would like to amend the application to promote clearance of exotic pest species in order to increase indigenous plant dominance.

Attached is a document detailing the pest plant management works proposed.

The area of pest plant management detailed in the document is approximately 2000sqm in size.

The photograph below provides an indication of the extent of pest plants present in this area.

Unfortunately the grove of willow trees referenced in the additional Wildlands Consultants Ltd assessment are located on private land.

The Trust can and will discuss removal of these trees with the landowner but cannot commit to clearance of them as part of a resource consent process.

Please see answers below in response to your questions on the culverts.

Feel free to contact me if you have any further questions.

Regards

Hi Luke,

The two 800mm dia culverts are each 6 metres long and are made of polyethylene.

Attached also is a sketch and our offer of additional noxious weed eradication work that may offset the influence the trail has on the wetland.

Happy to discuss.

Regards

David

Hi Luke,

When you come back with that other information from the FTT/Simon B this afternoon, can you please also confirm the length of the two culverts under the trail – the width is 800mm in the application. Can you please also confirm if they are e.g. plastic culverts, or if not, what they are made from.

The other culverts based on the photos you provided are 400mm x 6 metres

Thanks

Sonya

Hi Sonya

Thank you for the update.

The culverts in the wetland require resource consent under Rule 74 of the pSWLP and form part of the Trail. We have sought resource consent under Rule 74 of the pSWLP for wetland modification.

As the application is retrospective all affected parties have a good understanding of what has been constructed including the culverts.

We also note that the culverts in the wetland are permitted under the RWP. As noted in the response to the RFI the culverts meet the permitted conditions of Rule 28 of the RWP.

Given the permitted status, what environmental effects associated with the culverts could be of a concern? We don't consider updated written approvals or further consultation necessary.

Regards

Subject: RE: s92 Further information request - Fiordland Trails Trust

Hi Luke,

Thanks for the revised information. I will get Kelvin to review it, and provide updated technical comments on if the amendments and conditions proposed will overcome his original assessment that the effects on the wetland from the trail are more than minor.

One question for you – with the application now also seeking consent for the culverts, are you/ have you sought updated approvals from DOC, F&G and TAMI? I note in their approvals they looked at photos of the trail but it didn't include the culvert plan you have just submitted?

Thanks

Sonya

Subject: s92 Further information request - Fiordland Trails Trust

Hello Luke,

Further to our conversation this week, please find attached a s92 further information request for Leg 6 of the Fiordland Trails Trust application.

Also, I don't have appear to have an email address for the Fiordland Trails Trust contact for this application – can you please confirm it for me?

Please don't hesitate to contact me with any questions.

Regards

Sonya
