Invercargill

I: Victoria Caseley

(Name(s))

of: Landcorp Farming Limited

(Address)

at: 021763620

(Phone)

None

(Fax)

caseleyv@landcorp.co.nz

(E-mail)

Wish to **SUPPORT** **OPPOSE** submit a **NEUTRAL** submission on (circle one) the application of:

Name: Meridian Energy Limited

And/or Organisation: _____

Application Number: APP-20233670 Location: At and around the Manapouri Lake Control Structure

My reasons for my submission are: (State the nature of your submission and give clear reasons. Continue on attached pages if necessary)

The proposed works will create actual or potential adverse noise and dust effects for Landcorp Farming Limited staff residing at 167 Dun Craigen Road and 567 Weir Road.

The application does not provide sufficient detail to assess these actual or potential effects. It is not clear from the application:

1. The level and direction of traffic movements both to/from the site and within the site.
2. How the spoil disposal area will be cleared and material will be deposited, the maximum disposal area be exposed at any one time, in which direction the works will progress across the disposal area, how the spoil disposal area will be revegetated/restored.
3. How dust will be monitored and managed for the site, including across the haul road, spoil disposal area, temporary bunds and the excavation area.

Landcorp Farming Limited acknowledges the intention is to complete the excavation works in as short a timeframe as possible but note the full project timeframe is expected to be 10 months from establishment to disestablishment and rehabilitation.

I wish the Council to make the following decision *(Give precise details, including the nature of any conditions sought)*

Impose conditions requiring a noise management plan and dust management plan to be prepared and agreed with Landcorp Farming Limited prior to any works commencing. The plans must address actual and potential adverse effects arising from noise and dust on 164 Duncraigen Road and 567 Weir Road and set out how they are to be avoided, remedied or mitigated.

The plans must include, but not be limited to:

- hours of operations
- vehicle movements both to/from the site and around the site
- noise monitoring and control methods to be used
- methodology for clearing the disposal area and depositing dredged material and other material
- maximum area of exposed soil
- revegetation/restoration programme of exposed soil
- dust monitoring and control methods to be used.

I, **am not** *(choose one)* a trade competitor* of the applicant (for the purposes of Section 308B of the Resource Management Act 1991).

**If trade competitor chosen, please complete the next statement, otherwise leave blank*

I, **am/am not** *(choose one)* directly affected by an effect as a result of the proposed activity in the application that:

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

I, **do not** *(choose one)* wish to be heard in support of my submission.

I, **do not** *(choose one)* wish to be involved in any pre-hearing meeting that may be held for this application.

I have served a copy of my submission on the applicant.
