	than likely drowning	thom is ver-	1 harmful	•

The explading numbers of Canadian Seese and Black Swans is also a major concern, as numbers grow demand for food grows. Imagine the amount of poo 1000's of the big birds put into the lake.

Up until 6-7 years of the lake was fine fishing was fine, duck shooting was fine because it was opened regularily by locals. Then someone came along to fixit's since then nothing but problems culminating in this proposal. At 2.5 m washorn Road + its new bridge are closed.

I wish the Council to make the following decision (Give precise details, including the nature of any conditions sought)

Return to a maximum lake level of 2.2m as it las been for years. At least then washorn Road can remain open providing the access to properties and the board walk.

Culling of Canadian Geese and Black Swan a better use of resources.

Regular opening also helps the movement of fish, eels ete.

I, am/am not (choose one) a trade competitor\* of the applicant (for the purposes of Section 308B of the Resource Management Act 1991).

\*If trade competitor chosen, please complete the next statement, otherwise leave blank

I, am not (choose one) directly affected by an effect as a result of the proposed activity in the application that:

(a) adversely affects the environment; and

(b) does not relate to trade competition or the effects of trade competition.

I, do do not (choose one) wish to be heard in support of my submission.

I, do do not (choose one) wish to be involved in any pre-hearing meeting that may be held for this application.

SUBMISSION FORM - A33705 - 05/21

I have served	a copy of my submission on the applicant.	✓ Yes No		
Signed	Melerchle		_ Date	02-09-2024
