Name of applicant Te Rūnanga o Awarua, Department of Conservation, and Environment Southland (APP-20242456)
Activity location 100 Waituna Lagoon Road, RD 5, Invercargill 9875
Application number APP-20242456

Submission details

My submission relates to the whole application Yes
Details of my submission For some of us who have lived in the area for a while the situation has become barely believable. Discussions on the future of the lagoon where happening while I was in school. Many of us are now raising our own families and we seem further from a resolution.
Submission uploaded No

For now
& our future

I am a trade competitor of the applicant (for the purposes of section 308B of the Resource Management Act 1991) No

Outcome sought

I wish Environment Southland to make the following decision To oppose the application.

Why I wish Environment Southland to make this decision

The handling of the lagoon should stay with those with the most knowledge. The local community. On both sides of parents, farming goes back generations and generations as an occupation. Despite this, if I had been born and raised in the city and then placed out in the countryside. I would be a fish out of water with no idea. This idea that local Iwi have knowledge that the community doesn't have because their ancestors were there centuries ago. Is the kind of superstitious thinking that occurs right before civilization collapses. Please use logic and reason and reject emotional conclusions.
